

PROJECT NAME:

Portugal Must Honor Its Commitments

OBJECTIVE

Create a professional advocacy, petition, and legal-action website representing Golden Visa investors, residency applicants, and their families who have been adversely affected by excessive administrative delays and retrospective changes to Portugal's citizenship and residency framework.

The website has four primary objectives:

1. Collect signatures for a petition to be presented to the Portuguese Government.
2. Collect and document individual cases.
3. Build a database of potential claimants for legal action.
4. Quantify the human, financial, and economic impact of the delays and policy changes.

The website should be professional, credible, fact-based, emotionally compelling, and suitable for presentation to government officials, media outlets, investors, law firms, and courts.

VISUAL STYLE

- Institutional and professional.
- Similar to a serious public policy campaign.
- White background.
- Dark blue primary color.
- Gold accents.
- Modern typography.
- Mobile-first design.
- Fast loading.
- Optimized for international audiences.

The website must be available in:

- English
- Portuguese
- Chinese
- Spanish
